

J KEERTHANA

Java Backend Developer | Spring Boot | REST APIs | PostgreSQL

☎ +91 6360205030 | ✉ jkeerthana925@gmail.com | 🌐 [GitHub](#) | [LinkedIn](#) | 🌐 [Portfolio](#)

EDUCATION

Bangalore Institute of Technology (VTU)

2023 - 2027

Bachelor of Engineering (Information Science and Engineering)

CGPA: 8.41/10

TECHNICAL SKILLS

Languages: Java, Python, SQL

Backend: Spring Boot, Spring Security, Hibernate, REST APIs, JWT Authentication, FastAPI

Databases: PostgreSQL, MySQL

Frontend: HTML, CSS, JavaScript

Testing: JUnit, Mockito, Unit Testing

Developer Tools: Git, GitHub, Maven, Postman

Cloud & DevOps: Docker (Basic), Render, Netlify, Streamlit Cloud

Core Computer Science: OOP, DSA, DBMS, Operating Systems, SDLC, Agile

AI/ML: Retrieval-Augmented Generation (RAG), FAISS, Sentence Transformers, LLM Integration

EXPERIENCE

Software Engineering Intern

Jun 2026 - Aug 2026

Infosys Springboard Virtual Internship 7.0

- Completed the Infosys Springboard Virtual Internship 7.0 as part of a **10-member collaborative software development team**.
- Contributed to backend REST API development using **Java, Spring Boot, and PostgreSQL**, while using Git and GitHub feature branches for collaborative code integration.

PROJECTS

DecisionHub – Decision Support & Community Polling Platform 🌐 | 🔗

Jun - Aug 2026

Java | Spring Boot | PostgreSQL | REST APIs | React

- Developed DecisionHub, a decision support and community polling platform, as part of a 10-member collaborative team.
- Built and integrated backend REST API endpoints for decision and poll workflows using **Java, Spring Boot, and PostgreSQL**.
- Collaborated using Git/GitHub feature branches and team code integration; deployed the frontend on **Netlify** and backend services on **Render**.

Placement and Internship Management System (PIMS) 🌐 | 🔗

Feb 2026

Java | Spring Boot | Spring Security | JWT | PostgreSQL

- Developed a role-based Placement and Internship Management System using Spring Boot and PostgreSQL to support Student, Company, and Administrator workflows.
- Designed and implemented secure JWT-based authentication supporting three user roles.
- Developed RESTful APIs for job postings, applications, and profile management, incorporating eligibility checks and duplicate application prevention.

LawGlance – AI Legal Assistant (RAG) 🌐 | 🔗

Sep 2025

Python | Streamlit | FAISS | Sentence Transformers | Groq API

- Developed a Retrieval-Augmented Generation (RAG) chatbot for answering Indian legal queries using semantic search.
- Implemented semantic search using FAISS vector indexing with Sentence Transformer embeddings.
- Integrated Groq-hosted LLMs and deployed the application on **Streamlit Cloud**.
